SUBJECT INDEX

Abuse
  battered women, in Korea, group intervention for, 257-264
  childhood sexual, experiences of women healing from, 188-194
Adolescents
  depression in, psychopharmacologic treatment, 41-47
Advanced practice psychiatric nurses
  prescribing practices of, 205-213
    demographic characteristics of, 207-209
    education of, 208-209
    practice characteristics of, 209-212
  role in treating tobacco use and dependence, 107-119
Age
  differences in anxiety and role experiences of women with heart disease, 195-199
Antidepressants
  for treating adolescents, 41-47
    first-generation antidepressants, 41-42
    fluoxetine, 42-43
    fluvoxamine, 44-45
    paroxetine, 45
    sertraline, 43-44
    venlafaxine, 45
Anxiety
  in women with heart disease, differences by age groups, 195-199
Archives of Psychiatric Nursing
  a fresh look, 1-2
Asians
  Thai mothers' care for adult children with schizophrenia, 120-127

Battered women
  in Korea, effects of group intervention for, 257-264
Behavior
  brain and, molecular biology and psychiatric nursing, 171-181
    effects of life events on brain and behavior, 173-175
    gene-environment interactions, 176-177
    neuroplasticity, kindling effect, and behavioral sensitization, 172-173
Behavioral sensitization
  and neuroplasticity, implications for psychiatric nursing, 172-173
"Being met"
  by mental health care personnel, experiences of relatives of suicidal patients, 249-256
Bereavement
  parents' adjustment to, when child becomes mentally ill, 69-77
Bipolar disorder
  self-care agency and symptom management in patients treated for, 24-31
Borrowed theory
  of empathy, versus study from a nursing perspective, 140-147
Brain
  and behavior, molecular biology in psychiatric nursing, 171-181
    effects of life events on brain and behavior, 173-175
    gene-environment interactions, 176-177
    neuroplasticity, kindling effect, and behavioral sensitization, 172-173
Bupropion
  for treating nicotine dependence, 116
Burden, caregiver
  help-seeking by parents in response to child's first episode of schizophrenia, 159-170

Catastrophizing
  pain, predictors of in women with rheumatoid arthritis, 279-288
Chemical dependence
  using brief therapeutic interventions to treat women with, 32-40
Childhood sexual abuse
  experiences of women healing from, 188-194
Children
  disturbed, home treatment of, 4-8
  first experience of schizophrenia in, and parents' help-seeking, 159-170
  parents' experiences when child becomes mentally ill, 69-77
Cigarette smoking
  role of advanced practice psychiatric nurses in treating, 107-119
Clubhouse rehabilitation program
  implementing a wellness program for staff and persons with mental illness, 182-187
Collaboration, in research
  on consumer satisfaction with psychiatric hospital services, 10-23
Community care
  for schizophrenia in Taiwan, cost-effectiveness of vs. hospital-based home care, 272-278
  nursing support for clients with schizophrenia, 214-222
Community rehabilitation
  of persons with mental illness, role of health promotion in, 182-187
Consultation
  psychiatric consultation-liaison nurses, and hospitalized older patients, 53-61
Consumer satisfaction
  with services in regional psychiatric hospital, 10-23
Contracts
  no-suicide, and self-harm behavior in inpatient settings, 99-106
Coping behaviors
  pain catastrophizing, in women with rheumatoid arthritis, 279-288
Cost-effectiveness, of treatments
  of two models of care for schizophrenia in Taiwan, 272-278
Cultural beliefs
  Thai mothers' care for adult children with schizophrenia, 120-127

Delirium
  in older hospitalized patients, psychiatric consultation-liaison nurse interventions for, 53-61

Depression
in adolescents, psychopharmacologic treatment, 41-47
first-generation antidepressants, 41-42
fluoxetine, 42-43
fluvoxamine, 44-45
paroxetine, 45
sertraline, 43-44
venlafaxine, 45
in nursing home residents compared with community dwelling elders, 232-240
in older hospitalized patients, psychiatric consultation-liaison nurse interventions for, 53-61
self-care agency and symptom management in patients treated for, 24-31
Divorce
new requirements for marriage license (Editorial), 97-98
Domestic violence
battered women, in Korea, group intervention for, 257-264
Donabedian's model of quality
in analysis of benefits of psychiatric consultation-liaison nurse intervention, 54-55
Drug rehabilitation
using brief therapeutic interventions for women in, 32-40

Elderly, *see* Older adults *and* Psychogeriatrics
Empathy
from a nursing perspective, 140-147
King's Interacting Systems nursing framework, 144-145
Kohut's model of self-psychology and, 142-144
review of literature on, 141-142
role of borrowed theory, 140-141
Environment
interactions with genetics, implications for psychiatric nursing, 176-177
Ethical issues
involuntary treatment, legal rights and practical ethics, 241-244
application of nursing ethics, 243-244
case study, 241-242, 244
paternalism vs. self-determination, 243
Ethnicity
differences in parents' expectations in seeking mental health services, 223-231

Families, of mental health patients
"being met" by mental health care personnel regarding care of suicidal patient, 249-256
home treatment and, 4-8
parents' experiences when child becomes mentally ill, 69-77
Family
influence of (Editorial), 247-248
Feminist therapy
based on social constructionism, 148-154
Fluoxetine
for depression in adolescents, 42-43
Fluvoxamine
for depression in adolescents, 44-45
Forensic psychiatric nursing
lessons learned about violence (Editorial), 51-52
need for psychiatric nurses in (Letter), 49

Genetics
interactions with environment, implications for psychiatric nursing, 176-177
Geriatrics, *see* Psychogeriatric nursing
Grief
of parents when child becomes mentally ill, 69-70
Group therapy
brief, cognitive and experiential, for chemically dependent women, 32-40
for battered women in Korea, 257-264

Healing
from childhood sexual abuse, experiences of women, 188-194
Health care
homeless patients' experience of satisfaction with, 78-85
wellness program for treatment staff and persons with mental illness, 182-187
Health insurance
parity in coverage for mental health (Editorial), 203-204
Heart disease
anxiety and role experiences in three age groups of women with, 195-199
Help-seeking
by parents in response to child's first episode of schizophrenia, 159-170
parents' expectations of seeking and obtaining mental health services, 223-231
Home treatment, 3-9
advantages of, 4-5
clientele, 5-6
hospital-based, for schizophrenia in Taiwan, cost-effectiveness of, 272-278
nursing and, 7-8
purposes for visiting the home, 6-7
Homeless patients
experience of satisfaction with health care, 78-85
Hope
"being met" as passageway to, for relatives of suicidal patients, 249-256
Hospitalized patients
older medically ill, benefits of psychiatric consultation-liaison nurse interventions for, 53-61
Hospitals, psychiatric
consumer satisfaction with services in regional, 10-23
see also Inpatient psychiatric settings

Inpatient psychiatric settings
for schizophrenia in Japan, assessment of, 265-271
involuntary treatment, practical ethics of, 241-244
self-harm behavior and no-suicide contracting in, 99-106
solution-focused therapy and thought-disordered clients, 86-93
see also Hospitals
Insurance, *see* Health insurance
Involuntary treatment ethical dilemmas in, 241-244

Jails, *see* Prisons
Japan
schizophrenic patients, assessment of inpatient treatment of, 265-271

Kindling effect
and neuroplasticity, implications for psychiatric nursing, 172-173
King's Interacting Systems nursing framework
and concept of empathy, 140-147
Kohut's self-psychology model
and concept of empathy, 142-144
Korea
group intervention for battered women in, 257-264

Legal issues
legal vs. ethical rights of behavioral health patients, 241-244
Legislation
Mental Health Parity Act of 1996, and mental health insurance coverage (Editorial), 203-204
Life events
effect on brain and behavior, 173-175
implications for psychiatric nursing, 175-176
Life satisfaction
in nursing home residents and community-dwelling elders, 232-240
Loneliness
in older adults, phenomenological exploration of, 128-139

Marriage
new requirements for marriage license (Editorial), 97-98
Medically ill patients
older hospitalized, benefits of psychiatric consultation-liaison nurse intervention for, 53-61
Mental Health Parity Act of 1996
and insurance coverage for mental illness (Editorial), 203-204
Mental health services
home care, 3-9
hospitals, psychiatric
consumer satisfaction with, 10-23
parents' expectations about seeking and obtaining, 223-231
Mental illness
implementing a wellness program for persons with, 182-187
parental loss of child to, 69-77
parity in health insurance coverage for (Editorial), 203-204
Molecular biology
in conceptual approach to psychiatric mental health nursing, 171-181
effects of life events on brain and behavior, 173-175
gene-environment interactions, 176-177
neuroplasticity, kindling effect, and behavioral sensitization, 172-173
Mood
in nursing home residents and community-dwelling elders, 232-240
Mood disorder
self-care agency and symptom management in patients treated for, 24-31
Mothers
Thai, caring for adult children with schizophrenia, 120-127
see also Parents

Neuroplasticity
in molecular biology, and implications for psychiatric nursing, 172-173
Nicotine replacement therapy, 114, 116
Nurses, *see* Psychiatric nurses *and* Staff nurses
Nursing home residents
life satisfaction and mood, compared with community dwelling elders, 232-240
Nursing theory
empathy, from a nursing perspective vs. borrowed theory, 140-147

Older adults
hospitalized medically ill, psychiatric consultation-liaison nurse interventions for, 53-61
life satisfaction and mood in nursing home residents and community-dwelling, 232-240
loneliness in, phenomenological exploration of, 128-139
see also Psychogeriatric nursing
Outpatient psychiatric settings
prescribing practices of advanced practice psychiatric nurses, 205-213

Pain coping behaviors
catastrophizing, predictors of in women with rheumatoid arthritis, 279-288
Parents, of patients
expectations about seeking and obtaining mental health care, 223-231
experiences when child becomes mentally ill, 69-77
help-seeking by, in response to child's first episode of schizophrenia, 159-170
Parity Act, *see* Mental Health Parity Act
Paroxetine
for depression in adolescents, 45
Personal control
in chemically dependent women, using brief therapeutic interventions to change, 32-40
Phenomenological research
Hermeneutic, on relatives of suicidal patients "being met" as path to hope, 249-256
on loneliness in older adults, 128-139
Prescribing practices
of advanced practice psychiatric nurses, 205-213
Primary health care
homeless persons' satisfaction with, 78-85
wellness program for person with mental illness, 182-187
Prisons
lessons learned about violence in (Editorial), 51-52
psychiatric patients in, and need for psychiatric nurses (Letter), 49
Psychiatric consultation-liaison nurses
interventions by, benefits for older hospitalized medically ill patients and their nurses, 53-61
Psychiatric nurses
advanced practice
prescribing practices of, 205-213
role in treating tobacco use and dependence, 107-119
"fit" of for home treatment, 4-5
psychiatric consultation-liaison interventions by, for older hospitalized patients, 53-61
psychogeriatric, role of population-based, 66-67
see also Staff nurses

Psychiatric nursing
"crisis" in, and need for, in jails and prisons (Letter), 49
molecular biology as conceptual approach to, 171-181
effects of life events on behavior, 173-176
gene-environment interactions, 178-179
neuroplasticity, kindling effect, and behavioral sensitization, 172-173
Psychiatrists
collaboration with, in prescribing practices of advanced practice psychiatric nurses, 205-213
Psychogeriatric nursing
life satisfaction and mood in nursing home residents and community-dwelling elders, 232-240
psychiatric consultation-liaison nurse interventions for older hospitalized patients, 53-61
Stratified-Population-at-Risk (SPAR) model for, 62-68
Psychopharmacologic treatment
of depression in adolescents, 41-47

Quality of psychiatric care
inpatient treatment of schizophrenic patients in Japan, assessment of, 265-271

Racial differences
in parents' expectations of seeking and obtaining mental health services, 223-231
Rehabilitation, community
wellness program for treatment staff and persons with mental illness in, 182-187
Relapses
assessing self-care agency and symptom management in patients with mood disorder, 24-31
Relatives, *see* Families, of mental health patients
Religious beliefs
Thai mothers' care for adult children with schizophrenia, 120-127
Rheumatoid arthritis
predictors of pain catastrophizing in women with, 279-288
Role experiences
and anxiety in women with heart disease, 195-199

Satisfaction, consumer
homeless patients' experiences of satisfaction with care, 78-85
with services in regional psychiatric hospital, 10-23
Satisfaction, life
in nursing home residents and community dwelling elders, 232-240
Schizophrenia
assessment of inpatient treatment of patients with, in Japan, 265-271
documentation of care, 269-270
restraints and suicide, 270
teaching and discharge planning, 270
community nursing support for clients with, 214-222
effectiveness and cost of care for in Taiwan, 272-278
hospital-based home care model, 273
traditional community care model, 273
help-seeking for parents of children in first episode of, 159-170
delays in help-seeking in, 160
early detection of first episode, 160-161
factors influencing help-seeking, 161-163
Thai mothers' care for adult children with, 120-127
Self-care agency
and symptom management in patients treated for mood disorder, 24-31
Self-efficacy
in chemically dependent women, using brief therapeutic interventions to change, 32-40
Self-harm behavior
and no-suicide contracting in inpatient settings, 99-106
SERPN News, 48, 94, 155, 200, 245, 289
Sertraline
for depression in adolescents, 43-44
Sexual abuse
childhood, experiences of women healing from, 188-194
Smoking, cigarette
role of advanced practice psychiatric nurses in treating, 107-119
Social constructionism
feminist therapy based on, 148-154
Solution-focused therapy
for thought-disordered clients, 86-93
Staff nurses
and psychiatric consultation-liaison nurse interventions for older hospitalized patients, 53-63
wellness program for persons with mental illness and, 182-187
Stigma, of mental illness
and parents' help-seeking in response to child's first episode of schizophrenia, 159-170
parents' expectations of seeking and obtaining mental health services, 223-231
Stratified-Population-at-Risk model
for psychiatric nursing, 62-68
Suicide
no-suicide contracting in inpatient settings, 99-106
patients at risk for, relatives' experiences of "being met" by mental health personnel, 249-256
Survivors, of childhood sexual abuse
experiences of women healing from, 188-194
Symptom management
and self-care agency, in patients treated for mood disorder, 24-31

Taiwan
effectiveness and cost of care for schizophrenia in, 272-278
Telephone interventions
community nursing support for clients with schizophrenia, 214-222
Thailand
mothers' care for adult children with schizophrenia in, 120-127
Theory, nursing
empathy, nursing perspective on, vs. borrowed theory, 140-147
Thought-disordered clients
solution-focused therapy for, 86-93
To Your Health pilot project
wellness program for treatment staff and persons with mental illness, 182-187

Tobacco use/dependence
role of advanced practice psychiatric nurses in treating, 107-119
as drug abuse, 108-109
assessment, 111-112
benefits of cessation, 109-110
health consequences of, 109
intervention, 112-116
smoking prevalence, 107-108
tobacco control policy, 117

Uncertainty
and parental help-seeking in child's first episode of schizophrenia, 162-163

Venlafaxine
for depression in adolescents, 45

Violence
domestic, group intervention for battered women in Korea, 257-264
in forensic psychiatric setting, lessons learned (Editorial), 51-52

Wellness programs
for treatment staff and persons with mental illness, 182-187
Women's health care
battered women, in Korea, group intervention for, 257-264
chemically dependence, using brief therapeutic interventions to change self-efficacy, 32-40
experiences of healing from childhood sexual abuse, 188-194
feminist therapy, based on social constructionism, 148-154
heart disease, anxiety and role experiences in three age groups of women with, 195-199
rheumatoid arthritis, predictors of pain catastrophizing in women with, 279-288
